

I TUBI GRAZIELLA
HOLLOW "PIPES", A TRENDY TRADITION

Hollow pipes have been in Graziella's catalogues since the very beginning.

Graziella was in fact a leader in this technology and has continued to use it exploring unique shapes. The Centro di Creatività has recently been given the task to revise the entire range of items to update and expand it.

This condensed presentation has been organized per type:

DIAMANTATI (Diamond pavé)

SATINATI (Satin finish)

DOPPI (Double)

LUCIDI (Glossy finish).

We are sure that you will fully appreciate Variety and Workmanship as well as an extra element dedicated to you: SERVICE

To confirm this, all the jewelry we offer will always be available at our showroom.

LUCIDI

GLOSSY FINISH

Workmanship and finish together is the secret of these simple models. These earrings can be worn casually.

DIAMANTATI

DIAMOND PAVE'

These earrings are made using cutting edge technology to enhance the shine of gold.

SATINATI

SATIN FINISH

The excellent satin finish of our classic earrings displays the long-standing experience of artisan workmanship.

DOPPI

DOUBLE

The distinctive creativeness of the "coupled" earrings, displaying intertwined polished/glossy pipes and crafted pipes creates elegant and sinuous shapes.
